

PROJECTS

Real-Time Authenticated Chat Application | Node.js, WebSocket, MongoDB, OTP Verification

Designed and developed a secure real-time chat platform with WebSocket integration for instant communication. Implemented OTP-based authentication to enhance user security and prevent unauthorized access. Built scalable backend architecture using Node.js and MongoDB, ensuring high availability and performance.

Link of the Project : [DualLink](#)

Backend Development (Freelance Project) | Spring Boot, REST APIs, MySQL

Designed and deployed a robust backend system using Spring Boot for a client project. Developed and optimized RESTful APIs to handle complex business logic and data transactions. Integrated MySQL database for efficient data storage and retrieval, ensuring scalability.

Github Link of the Project : [FreeLancing](#)

IOT Research Project – Fuzzy Logic Fan Speed Controller | Arduino, Sensors, Fuzzy Logic Model

Conducted research on IoT systems and fuzzy logic applications for intelligent device control. Designed and implemented a fuzzy logic model to dynamically adjust fan speed based on environmental inputs. Integrated sensor data (temperature, humidity) with Arduino hardware for real-time decision making.

TECHNICAL SKILLS

Java	C	Spring Security	Spring AI	MySQL	CI/CD Pipeline	Kubernetes	MicroServices
Python	Spring Boot	Hibernate	React.Js	Docker	J-unit Testing	Git	LangChain
MongoDB	Express.Js	Node.JS	IOT	Machine learning			

EXPERIENCE

MERN Stack Developer | Labmentix. Pvt. Ltd.

Feb 2025 – May 2025

Developed and maintained full-stack web applications using MongoDB, Express.js, React, and Node.js. Built RESTful APIs and integrated them with front-end components to deliver seamless users experiences.

AI/ML Intern | Wipro Technologies (Corizo AI Program)

Jan 2024 – Mar 2024

Researched and developed a machine learning model for cardiovascular disease prediction. Applied data preprocessing, feature engineering, and supervised learning algorithms to improve accuracy. Built and validated predictive models using Python libraries (Scikit-learn, Pandas, NumPy Transformers etc)

EDUCATION

Bachelor of Technology (B.Tech)	(2023 - 2027)
Computer Science & Engineering	
Birla Institute of Technology, Mesra, Ranchi	C.G.P.A - 8.94

ACHIEVEMENTS

Awarded the **G.P. Birla Scholarship for Academic Excellence** twice in 2023 and 2024, recognizing outstanding performance

Gen AI Exchange Hackathon, innovated an AI powered youth mental wellness application.
